- (iii) Who congratulated Mr Kuti and his family for building a beautiful house? _____
- (iv) When did the party end? _____
- (v) The passage is about _____

LISTENING SKILLS

For the time being, the land is warm. But, it usually loses its temperature at night. As a result, it causes high pressure above. On the other hand, water in the sea cools down as gradually as possible.

Therefore, sea water remains warm. This makes pressure above it appear low. Thus, wind blows from the land towards sea at night.
