JULY MONTHLY TEST
MATHEMATICS CLASS V 2024

PUPIL'S NAME: _____

SECTION A (20 Marks)

Answer **all** questions in this section.

For each of the following questions, work out the answer in the space provided showing all work clearly.

NO.	Questions	Working
1.	a) $37\,777 + 63\,333 =$	
	b) $878\,984 - 878\,844 =$	
	c) $197 \times 86 =$	
	d) $85,000 \div 5,000 =$	
	e) $\frac{2}{7} + \frac{4}{14} =$	
	f) $\frac{9}{14} - \frac{8}{28} =$	
	g) $\frac{5}{6} \times \frac{6}{12} =$	
	h) $72 \times \frac{5}{6} =$	
	i) Subtract 999 from 9999	
	j) Multiply 6894 by 16	

SECTION B (60 Marks)Answer **all** questions in this section.

NO.	Questions	Working
2.	a) Andrew was asked to write the largest number using each of the digits 1, 5, 9, 2 and 6 once. How did he write?	
	b) Heagton School has six hundred and eleven pupils . Write the number of people in roman numbers.	
	c) John expanded 53042. What is the correctly answer?	
	d) Teresa was asked by her mathematics teacher to identify the smallest total value formed by the number below 245 034. What is the number?	
	e) The number of pupil in a certain school is 1308. Write the number in words.	
	f) What is the LCM of 42 and 18	

NO.	Questions	Working
3.	a) Write the next number in the sequence below 168,129, 90, 51, _____	
	b) A box of chalk has 100 sticks. How many sticks of chalk are in 154 boxes of the same kind?	
	c) A pair of tongs is sold at sh. 2 354. How much 19 pair of the same kind of tongs will cost?	

NO.	Questions	Working
4.	Observe the sequence of the number below and use them to solve question a , b and c . 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95 a) List all prime numbers from the above list	
	b) What is the difference between the largest and the lowest odd numbers from the sequence above.	
	c) Write the smallest even number from sequence above in roman number.	

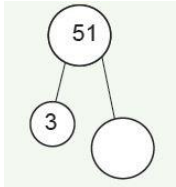

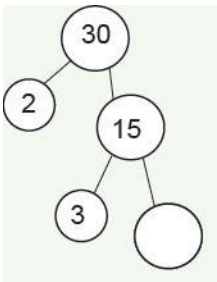

NO.	Questions	Working
5.	a) What is the difference between CMXLIV and DCLXXIX	
	b) Calculate the GCF of 42 and 18	
	c) List all factors of 45	

NO.	Questions	Working
6.	a) A school has three tree, the first tree has 355cm height, the second has 455cm height and the third one has 204cm height. What is the sum all trees in centimeter?	
	b) Your mother's phone ring 142 times a day, how many times do that phone ring in a week?	

- c) Juma walks 231 steps to school every day, if he goes to school for 45 days in a term. How many steps did he walk in a term?

SECTION C (20 Marks)

Answer **all** questions in this section.

NO.	Questions	Working
7.	Fill the missing factors in the following tree diagrams: a)  b) 	

NO.	Questions	Working												
8.	a) A pentagon has five equal side, each side has 21cm, calculate its perimeter.													
	b) An isosceles triangle is the triangle with two equal sides, if the two sides have 8cm each and the other side have 9cm. find its perimeter.													
	The triangles in the following table represent sales of coffee per month at Amani's shop. <table><tr><th>Months</th><th>Sales in kilograms</th></tr><tr><td>June</td><td></td></tr><tr><td>July</td><td></td></tr><tr><td>August</td><td></td></tr><tr><td>September</td><td></td></tr><tr><td>October</td><td></td></tr></table>	Months	Sales in kilograms	June		July		August		September		October		
Months	Sales in kilograms													
June														
July														
August														
September														
October														
	c) If one triangle represents 108 kilograms, what is the difference of coffee sales in kilograms between July and October?
